

Advanced JavaScript (ES6 to ES10) Course

Course Overview

The **Advanced JavaScript (ES6 to ES10) Course** is a practical, job-oriented training program designed for students and developers who want to master modern JavaScript. The course covers ES6 through ES10 features, asynchronous programming, DOM manipulation, modules, APIs, object-oriented JavaScript, and advanced concepts used in React.js, Angular, Vue.js, and Node.js development. Through hands-on projects and coding exercises, students gain the skills required to build interactive and dynamic web applications.

Course Duration

- **Duration:** 1.5 Months
 - **Mode:** Online / Offline
 - **Classes:** 5 Days per Week
 - **Live Projects:** 5+
 - **Assignments:** 30+
 - **Certificate:** Included
 - **Placement Assistance:** Included
-

Course Fee

₹4,000/- Only

Course Modules

Module	Topics Covered
Module 1	Modern JavaScript Fundamentals
Module 2	ES6 Features
Module 3	ES7 & ES8 Features
Module 4	ES9 & ES10 Features
Module 5	Asynchronous JavaScript
Module 6	DOM Manipulation
Module 7	Modules & API Integration
Module 8	Mini Projects & Interview Preparation

Detailed Course Content

Module 1: Modern JavaScript Fundamentals

- JavaScript Execution
 - Scope & Hoisting
 - Variables (var, let, const)
 - Data Types
 - Operators
 - Functions
 - Objects & Arrays
 - Loops & Conditions
 - Error Handling
-

Module 2: ES6 Features

- let & const
 - Arrow Functions
 - Template Literals
 - Default Parameters
 - Rest Parameters
 - Spread Operator
 - Destructuring
 - Enhanced Object Literals
 - Classes & Inheritance
 - Modules (Import & Export)
 - Promises
 - Maps & Sets
-

Module 3: ES7 & ES8 Features

- Array Includes()
 - Exponentiation Operator (**)
 - Async & Await
 - Object.entries()
 - Object.values()
 - String Padding
 - Trailing Commas
 - Async Functions
 - Error Handling with Try/Catch
-

Module 4: ES9 & ES10 Features

- Rest & Spread for Objects
- Promise.finally()
- Asynchronous Iteration
- Array.flat()
- Array.flatMap()
- Object.fromEntries()
- Optional Catch Binding
- String.trimStart()

- `String.trimEnd()`
 - `Symbol.description`
-

Module 5: Asynchronous JavaScript

- Callbacks
 - Callback Hell
 - Promises
 - Promise Chaining
 - Async/Await
 - Fetch API
 - JSON Handling
 - Error Handling
 - API Integration
-

Module 6: DOM Manipulation

- DOM Selection
 - DOM Traversing
 - Creating Elements
 - Removing Elements
 - Event Handling
 - Event Delegation
 - Form Validation
 - Timers
 - Local Storage
-

Module 7: Modules & API Integration

- ES Modules
- Import & Export
- Fetch API
- REST APIs
- CRUD Operations
- JSON Server

- Axios Introduction
 - Environment Variables
 - Best Practices
-

Module 8: Mini Projects & Interview Preparation

- Calculator
 - To-Do List
 - Management web
 - Weather App
 - Quiz Application
 - Expense Tracker
 - API-Based Project
 - Portfolio Enhancement
 - JavaScript Interview Questions
-

Technologies Covered

- JavaScript (ES6–ES10)
 - HTML5
 - CSS3
 - DOM API
 - Fetch API
 - JSON
 - REST APIs
 - Local Storage
 - Session Storage
 - ES Modules
 - Visual Studio Code
 - Chrome Developer Tools
 - Git & GitHub (Basics)
-

Live Projects

- To-Do List Application
 - Weather Application
 - Quiz App
 - Calculator
 - Expense Tracker
 - Notes Application
 - API Integration Project
-

Career Opportunities

After completing this course, students can apply for roles such as:

- JavaScript Developer
 - Frontend Developer
 - React.js Developer (Entry Level)
 - Web Developer
 - UI Developer
 - Frontend Engineer
 - Software Developer
 - Freelance JavaScript Developer
-

Prerequisites

- Basic HTML Knowledge
 - Basic CSS Knowledge
 - Basic JavaScript Fundamentals
 - Suitable for Students, Freshers, and Working Professionals
-

Certification

Upon successful completion of the course, students will receive:

- Advanced JavaScript Course Completion Certificate
- Live Project Certificate
- Internship Certificate (*if applicable*)
- Placement Assistance & Interview Preparation Support
